

## THE DOCTOR'S CHOICE TRUE HEPA ALLERGEN REMOVER AIR PURIFIERS

For Models: HPA-050 Series  
HPA-150 Series

## IMPORTANT SAFETY INSTRUCTIONS

### READ AND SAVE THESE SAFETY INSTRUCTIONS BEFORE USING THIS AIR PURIFIER

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before operating the air purifier.
2. Place air purifier where it is not easily knocked over by persons in the household.
3. Always turn the air purifier controls to the **OFF** position and unplug from the wall outlet when not in use.
4. To disconnect the models HPA-050, HPA-150 air purifiers, first turn the control to the OFF position, grip the plug and pull it from the wall outlet. Never pull by the cord.
5. Do not use any product with a damaged cord or plug or if product malfunctions, is dropped or damaged in any manner. Keep the cord away from heated surfaces.
6. Do not use air purifier outdoors.
7. Never use air purifier unless it is fully assembled.

8. Do not run power cord under carpets, and do not cover with throw rugs. Arrange cord such that it will not be tripped over.
9. Do not use air cleaner where combustible gases or vapors are present.
10. Do not expose the air purifier to rain, or use near water, in a bathroom, laundry area or other damp location.
11. The air purifier must be used in its upright position.
12. Do not allow foreign objects to enter ventilation or exhaust opening as this may cause electric shock or damage to the air purifier. Do not block air outlets or intakes.
13. Locate air purifier near the outlet and avoid using an extension cord.
14. This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of shock, this plug is intended to fit only one way in a polarized outlet. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician.  
**DO NOT** attempt to defeat this safety feature.
15. A loose fit between the AC outlet (receptacle) and plug may cause overheating and a distortion of the plug. Contact a qualified electrician to replace loose or worn outlet.
16. Do not sit, stand or place heavy objects on the air purifier.
17. Disconnect power supply before servicing.

**WARNING: To Reduce the Risk of Fire or Electric Shock, Do Not Use This Air Purifier With Any Solid-State Speed Control Device.**

## YOUR AIR PURIFIER

### HPA-050

Control Panel

Type **E** Odor Absorbing Pre-filter

Rear Grille

### HPA-150

Control Panel

Type **H** True HEPA Filters (2)

Type **E** Odor Absorbing Pre-filter

Rear Grille

## HOW YOUR AIR PURIFIER WORKS

This model air purifier incorporates a 2-stage cleaning system to help clean the air that passes through the filter in the unit (Fig. 1).

**Stage 1:** Odor Absorbing Pre-Filter

**Stage 2:** 99.97% True HEPA Filter that captures particles as small as 0.3 microns or larger

Fig. 1

### 2-Stage Cleaning System

## SET-UP

- Select a firm, level and flat location. For best airflow, locate the unit at least 3 feet (1 M) from any wall or furniture.
- When operating, large volumes of air are drawn toward the air purifier. Surrounding areas should be cleaned and/or vacuumed frequently to prevent build-up of dust and other contaminants. This may also help prolong the life of the filter. If the unit is placed on a light colored carpet, a small mat or rug should be used underneath to prevent permanent staining. This is especially important in homes with contamination from smoking, fireplaces, or where candles are burned.
- Ensure the front of the unit faces away from the closest wall or furniture.
- Ensure no grilles are blocked.

## INSTALL TRUE HEPA FILTERS

The True-HEPA Filters are supplied within the air purifier. They are wrapped to ensure purity, and are labeled to help identify the proper replacement filter.

(Type **H**).

- Turn-off and unplug the air purifier. While pressing on the tab at the top of the rear grille, pull the grille towards you and remove it (See Fig. 2). Grasp the sides of each filter frame near its top end and pull outward. Repeat for the second filter.
- Remove protective wrap from the filters.
- Place back into the air purifier housing by inserting the bottom edge of the filter frame behind the two corner tabs and press the top down and inward until the filter snaps in place.
- Snap the filter grille back into place.

Fig. 2

## OPERATION

### Models HPA-050 and HPA-150 Operation:

Ensure the air purifier's control knob is turned to the OFF position (⏻), and plug the power cord into a working electrical outlet. (Fig. 3).

**It is recommended you run your air purifier 24 hours a day to ensure continuous cleaning.**

**Portable air purifiers are more effective in rooms where all doors and windows are closed.**

Fig. 3

## ELECTRONIC FILTER CLEAN REMINDER

These air purifier models each have two electronic filter checks to remind you when to check and replace the True-HEPA filters and the Odor Absorbing pre-filters based on the air cleaner's hours of use.

When the True-HEPA filter(s) need to be replaced, the light below "HEPA filter" will remain on until it is RESET. You may unplug the air cleaner without interrupting the filter check.

The light below "pre-filter" will illuminate when it is time to replace the pre-filter.

You should periodically check these filters. Depending on operating conditions, the True-HEPA filters should be replaced every 12 months, and the odor absorbing pre-filters every 3 months, especially if there have been heavy odors in the home.

### To RESET Either Electronic Filter Check:

When a filter monitor light remains on, it is time to replace the True HEPA or Pre-filter and reset the filter monitor light. With the unit powered on, press the lighted button with the end of a ball point pen with the pen tip retracted and hold for approximately 2 seconds until the light turns off (Fig 4). Depending upon your individual usage (environment and hours used), you may need to check and replace the filters more or less frequently. If the True-HEPA filters are replaced before the filter monitor light turns on, the filter monitor should be reset at the same time.

These cleaning intervals are intended as guidelines only. Performance of any filter media is dependent upon the concentration of contaminants going through the system. High concentrations of contaminants such as dust, pet dander and smoking will reduce the useful performance of the filter.

**NOTE:** None of the filters are washable. Do not immerse them in water.

**Fig. 4** Will illuminate when it is time to clean HEPA filters

## REPLACING THE TRUE-HEPA FILTERS

You can purchase Honeywell replacement True-HEPA filter **H** for your air purifier at the store where you purchased your air purifier or they can be ordered directly from Kaz, the maker of Honeywell air purifiers at [www.replacementfilters.com](http://www.replacementfilters.com).

If you have any questions, contact Kaz Consumer Services at **1-800-477-0457**.

## MAINTAINING YOUR STAGE 1 ODOR-ABSORBING PARTICLE PRE-FILTER

The stage 1 odor absorbing particle pre-filter not only helps reduce odors, but also helps capture large airborne particles that enter the rear grille. This pre-filter should be replaced every 3 months, as it will become covered with particles and fibers that will reduce filtration performance.

Use the specially designed **B** replacement filter, also available where the True-HEPA filters are sold and from Kaz at [www.replacementfilters.com](http://www.replacementfilters.com) or by calling Kaz Consumer Relations at **1-800-477-0457**.

## CLEANING AND STORAGE

We recommend that you clean the air purifier at least once every 3 months and before extended storage. Use only a dry cloth to wipe the external surfaces of the air purifier.

**DO NOT USE WATER, WAX POLISH, OR ANY CHEMICAL SOLUTION.**

If your Air Purifier will not be used for more than 30 days, we recommend:

- Remove the True-HEPA Filters from the unit.
- Wrap the True-HEPA Filters in an air tight plastic bag.
- Remove the Odor Absorbing Pre-filters and place them in an air tight plastic bag.

## FREQUENTLY ASKED QUESTIONS

**My Air Purifier is starting to make noise and the air output is less. What's wrong?**

The filters may be dirty. High amounts of contaminants can block the pores in the filter and stop the air from moving through it. Replace the Filters.

**How long should I run my Air Purifier?**

For best results, you should operate your Air Purifier 24 hours a day. This unit will be more effective when doors and windows are closed.

**Can I wash any of the filters in my air cleaner?**

No. Washing either filter will ruin it.

## ACCESSORIES AND REPLACEMENT FILTERS

If you would like your air purifier to remain effective at reducing household odors, and to operate most effectively, you should continue to replace the odor absorbing pre-filters. This pre-filter is available as the Premium odor absorbing pre-filter **B**<sup>™</sup> or model HRF-B1 (single pack) or HRF-B2 (2 pack).

To order replacement filters for your air purifier, go to [www.replacementfilters.com](http://www.replacementfilters.com) or call **1-800-477-0457**.

- True-HEPA filter **H** model HRF-H1 (single pack) or HRF-H2 (2 pack)
- Odor absorbing pre-filter **B**<sup>™</sup> model HRF-B1 (single pack) or HRF-B2 (2 pack)

## 5 YEAR LIMITED WARRANTY

**You should first read all instructions before attempting to use this product.**

- A.** This 5 year limited warranty applies to repair or replacement of product found to be defective in material or workmanship. This warranty does not apply to damage resulting from commercial, abusive, unreasonable use or supplemental damage. Defects that are the result of normal wear and tear will not be considered manufacturing defects under this warranty. **KAZ IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE. ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ON THIS PRODUCT IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY.** Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you also may have other rights which vary from jurisdiction to jurisdiction. This warranty applies only to the original purchaser of this product from the original date of purchase.
- B.** At its option, Kaz will repair or replace this product if it is found to be defective in material or workmanship. Defective product should be returned to the place of purchase in accordance with store policy. Thereafter, while within the warranty period defective product may be returned to Kaz.

- C.** This warranty does not cover damage resulting from any unauthorized attempts to repair or from any use not in accordance with the instruction manual.
- D.** This warranty DOES NOT cover the washable pre-filter or the HEPA filters, except for material or workmanship defects.
- E.** Return defective product to Kaz, Incorporated with a brief description of the problem. Include proof of purchase and a \$10 US/\$15.50 CAN check or money order for handling, return packing and shipping charges. Please include your name, address and a daytime phone number. You must prepay shipping charges. Send to:
